Explanatory Notes

The main purpose of this Bulletin is to provide an up-to-date general overview of short-term economic trends in ECE countries. The indicators have been selected in consultation with the central statistical offices of the countries concerned.

Beginning with the January issue of the 1983 volume (volume XXV), this Bulletin appears in a new format, based on suggestions made by member countries, and approved by the Conference of European Statisticians at its twenty-ninth plenary session in June 1981 (ECE/CES/18, paragraph 37).

As from January 1984, the indices have been based on 1980 = 100 and codes have been attributed to the indicators as follows:

First group: 01 to 19;

Second group: 20 to 79;

Third group: 80 and above. Unlike the first two groups, the codes in this group are specific to individual countries due to the great variety of indicators.

Sources

The statistics appearing in this publication are supplied by the governments concerned with the exception of the item "International liquidity", data for which are provided by the International Monetary Fund (IMF). This item comprises convertible foreign exchange and reserve position in the Fund. In a few cases data for the item "Money Supply" are also taken from IMF sources; this is indicated in the relevant tables.

Revisions

In general, the latest monthly data should be treated as provisional. While the annual totals are usually revised, corresponding revisions to monthly figures are not always available. For this reason the annual total will not necessarily agree with monthly data.

Nomenclature

The data which relate to the Federal Republic of Germany and the German Democratic Republic include the relevant data relating to Berlin for which separate data have not been supplied. This is without prejudice to any question of status which may be involved.

Symbols employed

...	=	Not available.
-	=	Magnitude zero.
0	=	Magnitude not zero, but less than half of unit employed.
|	=	Series changed.
GWh	=	Gigawatt-hour = 10^6 KWh.

Tonnes are metric unless otherwise indicated.

"Billion" equals 1000 million.

The designations employed and the presentation of material in this publication do not imply the expression of any opinion whatsoever on the part of the Secretairat of the United Nations concerning the legal status of any country, territory, city or area or of its authorities, or concerning the delimitation of its frontiers or boundaries.

[1] Value of exports: data for Luxembourg are included with those for Belgium.
[2] Value of exports: excluding trade with German Democratic Republic.
[3] Value of exports: f.a.s. (free alongside ship) value.

Conversion factors for value of exports: Eastern European countries: official monthly national currency trade conversion coefficients.
Western European countries: Market rate Principal rate from International Monetary Fund - International Financial Statistics.

Statistical indicators of short-term economic changes

01. Including logging and fishing; excluding publishing, gas and water. For state and co-operative enterprises.
05. Average number of workers and employees.
10,11. Foreign trade leva.
28. Including brown coal.
30-32. Gross production.

Statistical indicators of short-term economic changes

07. Total floor space of dwellings commissioned constructed on the account of state enterprises and organizations.
38. Ready-rolled steel excluding tubes.
42. Excluding produce of enterprises belonging to Republican State Agro-industrial Committee.
46. Data for 1989 are from beginning of year, in relation to same period in 1980.
50. Sales of new passenger cars on state account. Sales of second-hand cars are excluded.
81. In terms of pure 100% nutrient content.
82. Monthly data exclude production of small enterprises.
84. Monthly data exclude production of auxiliary enterprises.
85. Enterprises wholesale price as at 1st January 1982.
87. Centralized state capital investment.
88. On account of centralized state capital investment.

01,04. Excluding enterprises managed by national committees, productive co-operatives and waterworks.
04. Excluding publishing.
07. Since January 1989 only quarterly data.
10. Imports f.o.b.
10,11. Since January 1989, new series introduced; values are given in valid single-component course of crown.

46. "Wage and salary index". The concept average earnings includes earnings for working regular hours, i.e. the average earnings per hour paid for regular working hours and excluding compensation for Sunday.

47,48. Monthly data refer to the middle of month; yearly data on monthly averages. Source of data: Ministry of Labour, Statistical Bureau.

49,87. Since June 1979, wholesale price index has been joined to the corresponding new index "Basic price index for domestic supply".

51. Total reserves excluding gold.

51,52. Jan-Dec. refers to end of period.

80. Including newsprint.

84,85. Quarterly index for quarter ending in month shown.

84. Enterprises with at least 1 000 persons (about 90% is included).

85. Excluding restaurants and hotels.

01,02. Excluding construction without installation and building completion work.
02,04. Adjusted for the number of working days.
06. Total gross generation of electricity, including generation by industrial establishments generating primarily for own use.
08. Cost-of-living index for all groups of private households.
10,11. Excluding shipments to and deliveries from German Democratic Republic.
20. Including production of small mines.
23. Coke oven, blast furnace and etc.
28,29. Imports and exports of patent fuel are included under those for hard coal.
29. Excluding exports to German Democratic Republic and East Berlin.

[1] Average figure for January and February.

03. Coal briquetting is included in mining.
03,04. Stone quarrying, clay and sand pits all included in manufacturing.
04. Including waterworks and generators, excluding publishing.
06,30-32. Gross production.
08. Monthly figures: base corresponding month of 1980 = 100.
22. Brown coal and lignite.
27. Quantity of hard coal in tons per underground working hours, performed.
33. Monthly figures: base corresponding month of 1980 = 100.

Statistical indicators of short-term economic changes

Hungary

	Indicator	Unit	Year	Jan.	Feb.	March	April	May	June	July	Aug.	Sep.	Oct.	Nov.	Dec.	Jan - Dec.

41. Excluding "fuming"; including regenerated sulphuric acid.
51. Total reserves excluding gold.
51,52. Jan-Dec. refers to end of period.
80. The figures relate to gross weight of crude ore mined.
81-84. Relate only to industry.
86. Including regenerated NaOH.
88. Excluding Diesel motors for cars.
89,91-92. Including set of accessories.
93. Industrial slaughter.
94. Milk production for consumption.

06. Total gross generation of electricity, including generation by industrial establishments generating primarily for own use.
07. New construction only.
08. Cost of living index excluding compulsory social insurance and wage tax.
10,11. Including exports and imports to and from Belgium and Luxembourg.
33. Including gas, electricity and domestic fuel oil.
36. Excluding ferro-alloys.

43. Monthly average. Including iron ore transported on the Ofoten railway from Sweden and loaded for shipment at Narvik.
47,48. End of month.
51,52. Money supply at the end of month and year.
80,83. Adjusted for the number of working days.
84,85. Data refer to quarterly averages.
86,87. Basic metal industries.

01,03,04. Sales production, including industrial goods, activities and services of own production of industrial enterprises and non-industrial services rendered as an auxiliary activity of an industrial enterprise. The monthly indexes include sea fishing, film laboratories, repairing services, exclude water works and supply.

03. The monthly indexes cover coal mining only.

04. The monthly indexes include also all mining except coal mining, sea fishing, film laboratories, repairing services and gas production.

07. Dwellings completed in socialized economy, excluding dwellings gained owing to capital repairs, excluding boarding schools, hotels, etc.

23. Including gas coke.

25. Processing of crude petroleum.

26. Average employment.

01,04. Refer to major divisions 2 and 3 of the United Nations International Standard Industrial Classification of All Economic Activities.
02,03,04. Adjusted for differences in the number of working days.
03. Excluding clay and sand pits.
06. Net production except "hydro" which is gross.
28,29. Corresponding to subgroups 322 and 323 of Standard International Trade Classification, SITC Rev.2.
34,35. Corresponding to divisions 34 and 35, to groups 323 and to subgroups 322,1-3 and 334,1-4 of Standard International Trade Classification, SITC Rev.2.
36. Excluding ferro-alloys.

07. Total floor space of dwellings commissioned on account of centralized state, enterprises' and organizations' investment. Quarter
24. Production of gas at t = 0C and pressure of 760 mm.
25. Including gas condensate.
36. Production of cast iron.
38. Ready-rolled steel excluding tubes.
42. Monthly data exclude produce of enterprises belonging to Republican State Agro-Industrial Committee.
43. Quarterly.
81. Since 1986 in 1000 t. In terms of pure 100% nutrient content.
84,88. Including spare parts.

02-04. Adjusted for differences in the number of working days.
06. Total gross generation of electricity, including generation by industrial establishments generating primarily for own use. Net production. Public utilities only.
07. Data are for new privately owned housing units completed only. Data exclude mobile homes and transient accommodations such as motels and hotels.
08. All urban consumers, U.S. city average.
09. Adjusted for the number of working days per month, seasonal variations, and major holidays.
10,11. Data are unadjusted.
11. Exports, current f.a.s. (free alongside ship) value.
24. Excluding nonhydrocarbon gases.
33. Fuels only. All urban consumers, U.S. city average.
36. Excluding production of ferro-alloys in electric furnaces.

39,40. Sum of monthly totals differs from annual total. As from 1988 data show exports of iron and steel products, according to SITC,Rev.3.
45. Milliard dinars.
47. Applicants for work who were previously employed.
51. Total reserves excluding gold.
51,52. Jan-Dec. refers to end of period.
87. The series for short credits supplied by banks, transferred investment funds and social funds.

ANNEX

PART I

List of indicators which are intended to be identical for all countries.

01. Industrial production - total - unajusted

The index is proposed to be based on 1980 = 100 and should refer to major divisions 2, 3 and 4 of the United Nations International Standard Industrial Classification of All Economic Activities (isic) i.e. mining and quarrying, manufacturing, electricity, gas and water. The index should not cover construction.

02. Industrial production - total - adjusted

As for item (1) but adjusted for changes in the number of working days in the month or for any other seasonal fluctuation.

03. Production - mining

The index is proposed to be based on 1980 = 100 and is to refer to major division 2 - mining of the ISIC.

04. Production - manufacturing

The index is proposed to be based on 1980 = 100 and is to refer to major division 3 - manufacturing of the ISIC.

05. Employment in industry

The index is proposed to be based on 1980 = 100 and should refer to the total numbers of salaried employees and wage earners. Sector coverage as for item (01).

06. Electric energy generated - total

Gross production of electric energy refers to the amount of electric energy produced that is measured at the output terminals of all sets in the station, i.e. including the electric energy taken by station auxiliaries, and losses in transformers that are considered integral parts of the station. Included also is total electric energy produced by pumping installations without deduction of electric energy absorbed by pumping. Unit: GWh.

07. Dwellings completed

The indicator should refer to the number of dwellings completed in all localities and all sectors (state, private, local, etc.). Unit: Number of dwellings.

08. Consumers' price

The index should be based on 1980 = 100 or on a year around 1980.

09. Value of retail sales

The index should be based on 1980 = 100 or on a year around 1980.

10. Imports - current value

Unit: national currency.

11. Exports - current value

Unit: national currency.

PART II

List of indicators which were recommended for inclusion.

20. Production of hard coal

Coal with a high degree of coalification and with a gross calorific value (moist ash-free basis) of at least 24 MJ/kg (> 5 700 kcal/kg) and with a nonrandom reflectance of vitrinite of at least 0.6. Recovered slurry is to be included. Unit: 1000 tonnes or tonnes.

21. Hard coal stocks at producers at end of month

The amount of hard coal in stock at hard coal producers. Unit: 1 000 tonnes.

22. Production of brown coal

Coal of gross calorific value of less than 24 MJ/kg (< 5 700 kcal/kg) and less on ash-free but moist basis. The mean random reflectance of vitrinide is less than 0.6. Unit: 1 000 tonnes.

23. Production of coke

The solid product obtained from carbonization of coal at high temperature. Includes gas coke and coke oven coke. Unit: 1 000 tonnes.

24. Production of natural gas

Natural gas is essentially methane but invariably contains a small proportion of other gases. It covers both non-associated gas (originating from fields producing both liquid and gaseous hydrocarbons) and also methane stripped at casing heads, recovered in coal mines and sewage gas. Separated ethane, propane and butane and other liquid yields, as far as they are separated, are excluded. Unit: million m3.

25. Production of crude petroleum

Mineral oil consisting of a mixture of hydro-carbons of natural origin, yellow to black colour, of variable specific gravity and viscosity. Also includes crude minerals oils extracted from bituminous minerals (shales, bituminous sand, etc). Crude petroleum includes lease condensate (separator liquids) which is recovered from gaseous hydro-carbons in lease facilities. Unit: 1000 tonnes.

Production of fuels refers to the quantities of fuels extracted or produced, calculated after any operation for removal of inert matter. In general, production includes the quantities consumed by the producers in the production process (e.g. for heating or operation of equipment and auxiliaries) as well as supplies to other producers of energy for transformation or other uses.

26. Hard coal mines - underground workers on books at end of month

Persons regularly employed underground, whether employed directly by the colliery or by an outside contractor with the following exceptions only:

1. Colliery Managers;
2. Colliery Deputy Managers/Undermanagers;
3. Colliery Engineers-in-Charge;
4. Surveyors;
5. Men on capital investment work (see definition of "Work on capital investment projects" under item 27).

In the underground productivity calculation (denominator), account is taken of the time spent underground on regular mining work by all personnel (including contractor's men) but excluding those categories specified above. Thus it includes time spent underground by workers normally employed for surface work and the work of supervisory staff regularly working underground. Trainees are included if their efforts contribute to the regular mining operations. Regular mining work includes:

1. Coal winning;
2. Roadway drivage except as specified above. Thus drivage of gate roads with the face, in advance of the face, or preparotory to retreat working is included;
3. Equipping and dismantling of faces;
4. Haulage and transport below ground, whether for coal, materials or men;
5. Maintenance and repair of roadways and other working;

6. Maintenance and repair of equipment underground. This includes Maintenance and repair of machines, in situ. Where a machine is so faulty as to require major repair in workshops or the installation of a new machine or part, then the dismantling of the machine, the transport to pit bottom of the faulty machine or part, the transport of the replacement machine or part from pit bottom to the working place, and the re-assembly of the machine at the working site are all included in this item.

7. Safety, health and ventilation work, such as dust-sampling, prevention of mine fires, etc.

Unit: 1000 persons

27. Hard coal-underground productivity (output per underground

man-hours)

Underground productivity is calculated from the production of hard coal related to productivity (net output) and from the underground man-hours worked by workers at mines.

In caluculating underground labour productivity the following items are excluded:

1. Recovery of coal from dumps comprises the recovery of hard coal from spoil heaps and the dredging of slurry from old settling ponds. (Slurries from the preparation process of currently produced coal from deep mines are included in output results provided they are sold or used at the mine).

2. Small mines are those which are not significant in the coal economy and where the effort in collecting the data is out of all proportion with the effect on overall results. (Example: in the United Kingdom they consist solely of those hard coal mines where less than 30 men are employed underground).

3. Work on capital investment projects covers activities over and above those required for maintaining existing production activities. The activities excluded as capital investment work are the sinking and deepening of shafts and staple shafts and the driving of drifts from the surface to the coal deposits. These activities are capital investment work whether they are accessing fresh reserves or not, for exsample, if they are providing a second or subsidiary means of access for men. Apart from sinking shafts and driving surface drifts, other capital investment work underground which is excluded from productivity calculations consists only of the drivage of new main underground roadways to access fresh reserves of coal in order to increase capacity.

   When once the new main roadways have been driven providing access to a virgin area of coal, then any subsequent driving of gate roads (for a retreating face for example), or making cross cuts to establish the face line, or the equipping of a newly established face, or the drivage of roadway sections along with or in advance of the movement of an advancing face are all part of the normal production operations and are included in the productivity calculations.

   Unit: kg

28, 29. Imports and exports of hard coal

Data relating to imports and exports refer to the amount of fuels obtained from or supplied to other countries respectively, whether or not there is an economic or customs union between the respective countries. In principle, transit trade is excluded. In general, data relating to imports and exports are based on declarations submitted by producers (or exporters) and importers; they may therefore differ from data supplied by the customs service and published in foreign trade statistical bulletins. Unit: 1000 tonnes.

30. Electric energy from hydro-electric power plants

Gross production of electric energy from hydro-electric power plants, excluding energy production from pumped storage stations. Unit: GWh

31. Electric energy generated in conventional thermal-power plants

Gross production in conventional power plants of every type, whether or not equipped for the combined generation of electric energy and heat. They accordingly include steam-operated generating plants, with condensation (with or without extraction) or with back pressure turbines, and plants using internal-combustion engines or gas turbines whether or not these are equipped for heat recovery. Unit: GWh.

32. Electric energy generated in nuclear power plants

Gross production of electric energy in nuclear power plants. Unit: GWh.

33. Fuel and light component in the consumer price index

Or similar index of energy price component in the consumer price index (to be specified by the country). The index should be based on 1980 = 100 or on a year around 1980.

34, 35. Current value of energy imports and exports

Total current values of all exports and all imports of all primary and secondary forms of energy. Unit: National currency.

36. Production of pig-iron and blast-furnace ferro-alloys

Unit: 1000 tonnes.

37. Production of crude-steel

Unit: 1000 tonnes.

38. Production of rolled products

Unit: 1000 tonnes.

39. Imports of steel products

Unit: 1000 tonnes.

40. Exports of steel products

Unit: 1000 tonnes.

For methodological notes to items 36 - 40 see the supplement to the Quarterly Bulletin of Steel Statistics for Europe entitled "Supplement-nomenclature with Definitions" issued by the ECE secretariat, Geneva 1967.

41. Production of sulphuric acid	Unit: 1000 tonnes.
42. Production of cement	Unit: 1000 tonnes.
43. Transport of goods by rail	Unit: Million net tonne-km
44. New orders received - Mining and manufacruting, value	Unit: Index 1980 = 100
45. Private consumption, volume	Unit: Index 1980 = 100
46. Average earnings, whole economy	Unit: Index 1980 = 100
47. Unemployment, registered - seasonally unadjusted	Unit: Thousands
48. Unfilled vacancies, registered	Unit: Thousands
49. Wholesale prices	Unit: Index 1980 = 100
50. Registration of new passenger cars	Unit: Thousands
51. International liquidity	Unit: Million U.S. Dollars
52. Money supply	Unit: National currency
53. Terms of Trade	Unit: Index 1980 = 100

For definitions to items 41-50 see the 1977 Supplement to the Statistical Yearbook and Monthly Bulletin of Statistics, United Nations, New York 1979 (ST/ESA/STAT/SER.S/Suppl.2). For items 51-52 the secretariat uses definitions provided by the International Financial Statistics (issued monthly by IMF).

كيفية الحصول على منشورات الامم المتحدة

يمكن الحصول على منشورات الامم المتحدة من المكتبات ودور التوزيع في جميع انحاء العالم . استعلم عنها من المكتبة التي تتعامل معها أو اكتب الى : الامم المتحدة ،قسم البيع في نيويورك او في جنيف .

如何购取联合国出版物

联合国出版物在全世界各地的书店和经售处均有发售。请向书店询问或写信到纽约或日内瓦的联合国销售组。

HOW TO OBTAIN UNITED NATIONS PUBLICATIONS

United Nations publications may be obtained from bookstores and distributors throughout the world. Consult your bookstore or write to: United Nations, Sales Section, New York or Geneva.

COMMENT SE PROCURER LES PUBLICATIONS DES NATIONS UNIES

Les publications des Nations Unies sont en vente dans les librairies et les agences dépositaires du monde entier. Informez-vous auprès de votre libraire ou adressez-vous à : Nations Unies, Section des ventes, New York ou Genève.

КАК ПОЛУЧИТЬ ИЗДАНИЯ ОРГАНИЗАЦИИ ОБЪЕДИНЕННЫХ НАЦИЙ

Издания Организации Объединенных Наций можно купить в книжных магазинах и агентствах во всех районах мира. Наводите справки об изданиях в вашем книжном магазине или пишите по адресу: Организация Объединенных Наций, Секция по продаже изданий, Нью-Йорк или Женева.

COMO CONSEGUIR PUBLICACIONES DE LAS NACIONES UNIDAS

Las publicaciones de las Naciones Unidas están en venta en librerías y casas distribuidoras en todas partes del mundo. Consulte a su librero o diríjase a: Naciones Unidas, Sección de Ventas, Nueva York o Ginebra.

Printed at United Nations, Geneva
